### Information about the problem

The Ukraine and Russia war is clearly fake and conspiring to trouble humanity and enslave people.

Any real government knows that if there is a war regardless all government globally shut down and the public hide in forests and woods and live life away from buildings homes and what they know is not theirs!

Understand that Ukraine and Russia war needs to begin process of government shut downs and borders globally open to the public as to their new life as woods people or forest scavengers

The public cannot remain corruptors pretending to work and pretending to pay rent bills and mortgages because they are faking it and causing scam works so enslave the future generations to work for them and these people are not willing, the public scammers have not contributed anything to anyone to be able to have the power through government to enslave the innocent no one cares that the public are dangerous while government idiots have fun on the news like it's a good time it's not funny!

The public are the worst thing in the whole war! They don't fight knowing soldiers are fake

fighting and taking pictures of destroyed buildings as evidence there is no such thing as a real economy and it's worth!

You are all children making videos for the news and laughing at how serious people take you but even the diluted would not take you serious!

The result of a war like Ukraine and Russia is an immediate closure of all governments worldwide and the public disperse and disappear in to forests for the animals they complied as being in order to destroy society to corrupt exploit enslave and abuse for the future!

THE WAR IS NOT GOVERNMENT PRIORITY THE PRIORITY IS TO FREE THE PEOPLE OF GOVERNMENT AND EXCUSES SO THAT ANY WRONG DOING THEY COMMIT IS BECAUSE OF THEMSELVES!

Society is a scam! So is your war! You stupid woods people
